

>200k Kilometers Of Subsea Cable Projects

Pioneer's Permitting Regions

**OFFERING A VARIETY  
OF SERVICES  
RANGING FROM  
ROUTE DESIGN  
TO PERMITTING  
MANAGEMENT FOR  
EVERY PROJECT  
AROUND THE GLOBE**

Pioneer has extensive experience and knowledge of the permitting regime in the United States, Europe, Middle East, and East Africa region. With a team deeply rooted in permitting services, we provide the following capabilities:

- Permit feasibility studies
- Route development and constraints analysis in GIS
- Engineered drawings and Construction Method Statements
- Schedule of Mitigations and permit compliance
- Archaeological and environmental survey design and implementation
- Decommissioning Plans and permit applications for cable removals
- Manage permit process management including permit matrices and Plan of Work updates

- Baseline studies, impact assessments and other desk-based studies
- Permit applications and advisory services on procedures
- Fisheries consultations, agreements and cable awareness stakeholder consultation for cable survey and installation
- Terrestrial, marine, and seabed user crossing agreements
- Post installation survey and permit compliance reports for authorities

### About Pioneer Consulting

Drawing on decades of experience, Pioneer Consulting empowers clients to take their vision for a submarine fiber optic telecommunications system and make it a reality. The company provides expert counsel to guide clients through the full permitting process of subsea cable survey, installation and removal, while also providing valuable technical and commercial insight about additional environmental and cultural resource due diligence and survey requirements. Our past experience working for government or doing permitting for subsea infrastructure means we know what authorities are looking for, and how to move permits through the system. From comprehensive project management to mitigation design, Pioneer has the expertise and resources to support clients through each stage of their venture. Pioneer has completed 150+ projects, spanning every ocean across six continents. To learn more, visit [www.pioneerconsulting.com](http://www.pioneerconsulting.com) or follow us at @PioneerConsults.
